RESPONSE B

The applicant is grateful to the Examiner for his consideration of the application. The Examiner has indicated that claims 1-14 are allowable and has requested that the applicant surrender U.S. Patent No. 5,551,445 and that the applicant submit a PTO-1449 listing all the prior art cited in the parent application.

In accordance with the Examiner's requests, the applicant has attached the original U.S. Patent No. 5,551,445 and a PTO-1449 listing all the prior art cited in the parent application as well as any art cited by the Examiner in the present application and the Examiner in the parent application. Issuance of a notice of allowance is respectfully requested.

The applicant believes that no fees or extensions of time under 37 C.F.R. 1.136(a) are required at this time. However, this conditional petition is being made to provide for the possibility that the need for a petition for an extension of time has been overlooked. If any additional fees are required for the timely consideration of this application, please charge deposit account number 19-4972.

Respectfully submitted,
